

INVESTMENT STRATEGY AND PROCESS

Lester Asset Management Inc. ("LAM") launched an actively managed All-Cap Canadian Equity strategy for its segregated accounts in July 2006 and created a pooled version through the LAM Canadian Equity Fund (the "Fund") in January 2012. The strategy's aim is to be different from the S&P/TSX Composite Index and achieve higher returns than the market with lower risk as measured by low market correlation, low cyclical exposure, and better industry diversification. The portfolio is invested in 40 to 50 small, mid and large cap Canadian listed companies selected using a research process based on fundamental bottom-up analysis, strict quantitative and qualitative criteria, and a sound understanding of each company and the industry in which each operates, complemented by a macro-economic outlook. The investment style is value-driven and opportunistic, seeking to buy shares at a discount to a company's true worth, with the goal of maximizing shareholder value through dividend growth, share buybacks, spin-offs or an outright sale.

MONTHLY COMMENTARY

The **LAM Canadian Equity Fund** declined by -2.9% on a gross basis versus -2.2% for the TSX Composite Total Return. World stock markets dropped sharply during the month as there was no shortage of negative news, including delays in passing the U.S. infrastructure bill and raising the U.S. debt ceiling. Also, contagion resulting from a massive debt default by Chinese real estate developer Evergrande Group gripped capital markets. The S&P500 corrected by -4.7% while the NASDAQ plunged -5.7%. Likewise Europe and Emerging Markets were down -2.9% and -2.8% respectively. Yields on 10-year government bonds rose on comments by the U.S. Federal Reserve concerning the beginning of “tapering” and nagging inflation due to supply chain disruptions, supply-demand imbalances, and labor shortages. Our underperformance was mainly due to our lack of exposure to oil & gas exploration and production companies included in the Energy sector which rose +18%. Despite recent positive announcements by most of our portfolio holdings, negative momentum in certain sectors such as healthcare had a drag on our performance. Our top contributors were not surprisingly energy infrastructure companies such as **Keyera**, **TC Energy**, **Enbridge** and **Gibson Energy**, as well as supply chain management software services provider **TECSYS**, wireless equipment manufacturer **Baylin Technologies**, and **TD Bank**. Gains were more than offset by declines in our small and mid-cap healthcare related holdings such as **CareRX**, **CloudMD**, **Sienna Senior Living**, and **Lifeworks** (formerly Morneau Shepell), as well as **MDF Commerce** which issued a large amount of equity to complete the transformational acquisition of Periscope to become a North American leader in the business-to-government e-procurement segment. We have been taking advantage of market weakness to add new positions to the portfolio, but we remain wary of persistently high equity valuations.

ABOUT THE FIRM

Lester Asset Management is an independent discretionary portfolio management firm serving private clients and institutions such as charitable foundations, while exercising a fiduciary duty to always act in its clients' best interest. The Firm is committed to preserving and growing the financial wealth of its clients through responsible and ethical investing while also providing a high level of personalized service to meet its clients' evolving needs. The Firm is focused on the active value-added management of two core strategies: All-Cap Canadian Equity and Canadian Fixed Income, aiming to outperform the main indices and to add value by achieving higher returns than the market with lower risk. Annualized returns of the Firm's Canadian Equity strategy have consistently ranked in the 1st quartile for over 10 years. In 2019, the Firm was selected by the Quebec Emerging Managers Program to manage a pooled Canadian Bond fund for a group of institutional investors.
