

LESTER ASSET MANAGEMENT

RESPONSIBLE GROWTH

CANADIAN EQUITY REPORT May 31, 2024

INVESTMENT STRATEGY AND PROCESS

Lester Asset Management Inc. ("LAM") launched an actively managed All-Cap Canadian Equity strategy for its segregated accounts in July 2006 and created a pooled version through the LAM Canadian Equity Fund (the "Fund") in January 2012. The strategy's aim is to be different from the S&P/TSX Composite Index and achieve higher returns than the market with lower risk as measured by low market correlation, low cyclical exposure, and better industry diversification. The portfolio is invested in 40 to 50 small, mid and large cap Canadian listed companies selected using a research process based on fundamental bottom-up analysis, strict quantitative and qualitative criteria, and a sound understanding of each company and the industry in which each operates, complemented by a macro-economic outlook. The investment style is value-driven and opportunistic, seeking to buy shares at a discount to a company's true worth, with the goal of maximizing shareholder value through dividend growth, share buybacks, spin-offs or an outright sale.

MONTHLY COMMENTARY

For the month of May, the **LAM Canadian Equity Fund** was up **+0.5%** on a gross basis versus **+2.8%** for the TSX Composite Total Return. Year-to-date, the Fund is up **+4.2%** versus **+7.6%** for the TSX. World equity markets rebounded strongly after a sharp drop in April, as both lower inflation and subdued economic data sparked a rally in both stocks and bonds on the expectation that interest rate cuts would take place sooner. Our underperformance versus the TSX was mainly due to a lack of exposure to the volatile Gold sector, and our low weightings in the Financial and Energy sectors which rose by **+3.6%** and **+2.2%** respectively. Our top contributors included **Boralex, Neo Performance Materials, Element Fleet, Savaria, RBC** and **Dollarama**, whose strong performances were partially offset by declines in several of our mid-cap holdings such as **MDA Space, Pollard Banknote**, and **TECSYS**, which all nevertheless reported excellent results. Also, several of our larger cap holdings such as **ATS, WSP Global, CGI Group**, and **Pet Value**, were negatively affected by coincidental secondary stock offerings which depressed their share prices during the month. It should be noted that, as of the time of writing this report, our portfolio is off to a very strong start in June, up over **+1.6%** versus **-0.6%** for the TSX. This is partly thanks to **Park Lawn** whose stock rose by nearly 60% after receiving a take-over offer at a significant premium to what its shares were trading at. We continue to have a positive view of equity markets as interest rates decline throughout the year on lower inflation data. We also remain very confident in the intrinsic value and potential upside of our portfolio which remains well diversified in low cyclical and economically resilient growing businesses trading at reasonable valuations.

*Returns for LAM's Canadian Equity strategy are gross of management fees and based on dollar-weighted gross returns for the Canadian Equity composite of segregated portfolios managed by LAM using the same strategy from July 2006 until the launch of the Fund in January 2012, and on gross returns of the LAM Canadian Equity Fund thereafter. **The S&P/TSX Composite Total Return Index is the benchmark that has been used since the inception of LAM's Canadian Equity strategy in July 2006 and the Fund in January 2012, and reflects the policy of investing only in Canadian Equity securities.*** Returns on the different unit series of the Fund will vary due to applicable management fees. Please read the Offering Memorandum before investing in the Fund. Pooled fund returns are not guaranteed as unit values change frequently and past performance may not be repeated.
