

LESTER ASSET MANAGEMENT

RESPONSIBLE GROWTH

GLOBAL BIODIVERSITY FUND REPORT June 30, 2024

INVESTMENT STRATEGY AND PROCESS

Lester Asset Management Inc. (“LAM”) launched the Lynx Global Biodiversity Fund (the “Fund”) in February 2024 as an actively managed thematic global equity strategy. The Fund seeks to provide long-term capital appreciation by investing in equity securities of publicly traded companies listed on recognized global stock exchanges that operate businesses that help protect and promote biodiversity. The Fund aims to meet its objectives by investing in companies that will benefit from powerful long-term global trends related to achieving nature-positive goals and implementing nature-based solutions to halt and reverse nature loss and land degradation, protect and improve the quality of the environment, promote sustainability, and address related issues such as water and food security. The stock selection process is robust using fundamental bottom-up internal research and analysis of companies best meeting one of four internally developed biodiversity-linked investment themes derived from UN Biodiversity Framework (COP15) targets, EU Taxonomy Environmental Objectives, and UN Sustainable Development Goals (SDGs), while also taking ESG and other factors into consideration. The Fund also benefits from the expertise of an Advisory Board for feedback, guidance and insight into specific companies, industry developments, and emerging opportunities.

INVESTMENT THEMES

<p>Environmental Stewardship</p>  <p>Assessment & Monitoring Remediation & Restoration Natural Resource Management Green Infrastructure</p>	<p>Pollution Control and Clean Technology</p>  <p>Water & Wastewater Treatment Waste Management & Recycling Air Filtration & Emission Control Clean Technology</p>	<p>Sustainable Products and Processes</p>  <p>Sustainable Products Supply Chain Solutions Circular Economy Processes Energy Efficiency</p>	<p>Sustainable Agriculture and Food Systems</p>  <p>Agrotechnology & Agriscience Soil & Crop Management Food & Beverage Systems Aquaculture</p>

FUND ALLOCATION BY INVESTMENT THEME AND GEOGRAPHY

MONTHLY COMMENTARY

In June, the **Lynx Global Biodiversity Fund** declined **-0.96%** versus a rise of **+2.46%** for the MSCI World Index Total Return, including dividends in Canadian dollars. June was a challenging month for most equities globally, as only 7 mega tech-related stocks drove an astounding 82% of the index's return. The MSCI World Equal Weighted Index was down **-1.16%** in CAD \$, highlighting the reliance on these 7 stocks to drive markets. Since its inception on February 12, 2024, the Fund has generated a gross return of **+5.12%** compared to **+9.97%** for the MSCI World Index. This return was achieved despite the Fund being, on average, only approximately 65% invested during the period, as inflows from subscriptions were gradually deployed. Our top performers were **CECO Environmental** (industrial air & water solutions), **Valmont Industries** (irrigation systems) and **Norcod** (aquaculture). Our main detractors were **Eurofins Scientific** (laboratory testing), **Veolia Environnement** (water & waste management) and **Bureau Veritas** (testing, inspection and certification). All 3 companies are based in France and were impacted by recent geopolitical events there. Additionally, Eurofins was subject to a short report which was thoroughly refuted by the company. Each has a significant global presence and attractive long-term growth prospects, and we were comfortable adding to all three positions during the sell-off. Biodiversity-themed investing is in the early stages of multi-decade tailwinds driven by aggressive UN targets to halt and reverse biodiversity loss and restore degraded ecosystems, increased financial disclosure by corporations regarding nature-related impacts, dependencies, and risks, and heightened regulatory compliance regarding "greenwashing."

PORTFOLIO MANAGERS

Matthew Kaszel, CFA - Portfolio Manager, Global Equities

Matthew joined the firm in 2022 as a Portfolio Manager specializing in Global Equities. With a solid background in finance, he brings over nine years of experience as a research analyst and portfolio manager at an established investment management firm in Montreal. Matthew holds a B. Com in Finance from the John Molson School of Business and is a Chartered Financial Analyst (CFA). Beyond his professional duties, Matthew is involved in several environmental finance and educational initiatives. He is a member of the TNFD forum (Taskforce on Nature-related Financial Disclosures) and a participant in Nature Action 100, a global initiative encouraging corporate action to mitigate nature and biodiversity loss. He is also a board member of the Loyola High School Foundation where he also serves on the investment committee.

Investment team: Stephen Takacsy, B. Eng, MBA - Chief Investment Officer ; Rala Chen, MBA, CFA - Research Analyst, Global Equities
