

LESTER ASSET MANAGEMENT

RESPONSIBLE GROWTH

CANADIAN EQUITY REPORT December 31, 2024

INVESTMENT STRATEGY AND PROCESS

Lester Asset Management Inc. ("LAM") launched an actively managed All-Cap Canadian Equity strategy for its segregated accounts in July 2006 and created a pooled version through the LAM Canadian Equity Fund (the "Fund") in January 2012. The strategy's aim is to be different from the S&P/TSX Composite Index and achieve higher returns than the market with lower risk as measured by low market correlation, low cyclical exposure, and better industry diversification. The portfolio is invested in 40 to 50 small, mid and large cap Canadian listed companies selected using a research process based on fundamental bottom-up analysis, strict quantitative and qualitative criteria, and a sound understanding of each company and the industry in which each operates, complemented by a macro-economic outlook. The investment style is value-driven and opportunistic, seeking to buy shares at a discount to a company's true worth, with the goal of maximizing shareholder value through dividend growth, share buybacks, spin-offs or an outright sale.

MONTHLY COMMENTARY

For the month of December, the **LAM Canadian Equity Fund** declined by **-1.3%** on a gross basis versus a drop of -3.3% for the TSX Composite Total Return. Most world stock markets pulled back sharply following November's positive reaction to pro-business U.S. election results, as investor euphoria faded on worries that future policies such as import tariffs will be inflationary and cause interest rate cuts to be put on hold. The sell-off was broad-based as the S&P 500 Equal Weight Index was down -6.3%, while the MSCI World Equal Weight Index was down -4.3%. Our strong outperformance versus the TSX was mainly due to our low weightings to the Materials and Energy sectors which were down -5.3% and -3.9% respectively. For 2025, the Fund was up **+20.9%** versus +21.6% for the TSX, our slight underperformance being due to our lower weighting in Financials and lack of exposure to the Gold sector and Shopify. Among our top contributors for the month were once again space technology leader **MDA**, seafood supplier **High Liner Foods**, and supply chain solutions provider **TECSYS**, as well as **Bank of Montreal, Loblaw** and **WSP Global**. Our main detractors included **EQB** which announced record results but fell short of expectations, **Telus, Pet Value** and **CN Rail**, as well as home accessibility and patient handling equipment manufacturer **Savaria**. Regarding the threat of U.S. tariffs, we believe our portfolio would be relatively immune to these since we have little exposure to materials or exporters to the U.S., and most of our holdings are either domestic businesses, have manufacturing facilities in the U.S., sell products that are exempt from tariffs such as FDA approved ones, or are in services businesses.

*Returns for LAM's Canadian Equity strategy are gross of management fees and based on dollar-weighted gross returns for the Canadian Equity composite of segregated portfolios managed by LAM using the same strategy from July 2006 until the launch of the Fund in January 2012, and on gross returns of the LAM Canadian Equity Fund thereafter. **The S&P/TSX Composite Total Return Index is the benchmark that has been used since the inception of LAM's Canadian Equity strategy in July 2006 and the Fund in January 2012, and reflects the policy of investing only in Canadian Equity securities.*** Returns on the different unit series of the Fund will vary due to applicable management fees. Please read the Offering Memorandum before investing in the Fund. Pooled fund returns are not guaranteed as unit values change frequently and past performance may not be repeated.
