

LESTER ASSET MANAGEMENT

RESPONSIBLE GROWTH

CANADIAN EQUITY REPORT March 31, 2026

INVESTMENT STRATEGY AND PROCESS

Lester Asset Management Inc. ("LAM") launched an actively managed All-Cap Canadian Equity strategy for its segregated accounts in July 2006 and created a pooled version through the LAM Canadian Equity Fund (the "Fund") in January 2012. The strategy's aim is to be different from the S&P/TSX Composite Index and achieve higher returns than the market with lower risk as measured by low market correlation, low cyclical exposure, and better industry diversification. The portfolio is invested in 30 to 40 small, mid and large cap Canadian listed companies selected using a research process based on fundamental bottom-up analysis, strict quantitative and qualitative criteria, and a sound understanding of each company and the industry in which each operates, complemented by a macro-economic outlook. The investment style is value-driven and opportunistic, seeking to buy shares at a discount to a company's true worth, with the goal of maximizing shareholder value through dividend growth, share buybacks, spin-offs or an outright sale.

QUARTERLY COMMENTARY

For the 1st quarter of 2026, the **LAM Canadian Equity Fund** declined by **-2.9%** on a gross basis versus a rise of +3.9% for the TSX Composite Total Return. Our underperformance versus the TSX was mainly due to low exposure to the energy sector, which was up over 42%, our lack of exposure to the gold sector, which was up 11%, and our larger weighting in the technology sector which was down -19%. Without such large weightings in energy and material stocks, having contributed +4.3% and +1.9% respectively to the TSX return during the quarter, the Canadian Index would have been down similarly to the U.S. and global indices. Contributors during the quarter were space technology leader **MDA Space**, home accessibility products supplier **Savaria**, energy infrastructure behemoth **Enbridge**, gas utility **Altagas**, telecom services provider **Quebecor**, and **Bank of Montreal**. Detractors included tech-related companies such as **Thomson Reuters**, **CGI Group**, **Kinaxis**, **Constellation Software**, **D2L**, and **Altus Group**, which despite each reporting record profits and trading at attractive valuations, continued to suffer from negative sentiment regarding AI disruption. Other high-quality names hurt by sentiment, yet issuing records results, were **Element Fleet**, **Definity Financial** and **WSP Global**. Momentum investing, algorithmic trading, and hedge funds are aggressively buying into themes like AI and indiscriminately selling entire sectors such as software, without regard for valuation or how well individual companies are doing or how they are integrating AI into their products and services to strengthen their moats. It takes tremendous restraint not to get caught up in the hype and stay the proven course of building wealth while preserving capital. We thus continue to focus on buying good businesses at attractive prices, knowing that patience will ultimately be rewarded and that their true value will eventually be reflected in the market.

*Returns for LAM's Canadian Equity strategy are gross of management fees and based on dollar-weighted gross returns for the Canadian Equity composite of segregated portfolios managed by LAM using the same strategy from July 2006 until the launch of the Fund in January 2012, and on gross returns of the LAM Canadian Equity Fund thereafter. **The S&P/TSX Composite Total Return Index is the benchmark that has been used since the inception of LAM's Canadian Equity strategy in July 2006 and the Fund in January 2012, and reflects the policy of investing only in Canadian Equity securities.*** Returns on the different unit series of the Fund will vary due to applicable management fees. Please read the Offering Memorandum before investing in the Fund. Pooled fund returns are not guaranteed as unit values change frequently and past performance may not be repeated.
